

10 Of The Many Reasons Why You Should Be Using NG Care Portal (NGCP)

1.

NGCP is brought to you by a seasoned Medical Doctor who is also an accomplished Certified and Chartered IT Professional.

Introducing – Dr Fatai O. Badmus

- BSc (Hons.), MBChB, PRINCE2, MSP, CITP
- Qualified as a medical doctor in 1983 @ the University of Ife
- Has lived and worked extensively in 4 countries on 3 continents
- An accomplished Medical, Business and IT consultant
- Provided high-level and high-value services to major corporations in the City of London, the UK National Health Service and large numbers of SMEs in the UK and other parts of the world.

2.

We are subject-matter experts, who know the many products, variants and flavours in the marketplace and are best placed to deliver the perfect solution to for your practice.

Basic Definitions of Electronic Records

- EHR = Electronic records of patients' wholistic health information optimised for sharing with other providers or organisations
- EMR = Essentially the electronic version of local clinical paper-based information
- MRS = Medical Records System = Basically the same as EMR
- CDSS = Clinical Decision Support System = Computer program or system enabling clinical diagnosis and treatment options
- HIS = Hospital Information System = Hospital Management System = Enhanced EMR focussed on hospital administration.

What are the main differences between these?

Private Health Care Providers are mainly interested in EMR or EHR

- **EMR –**
 - Electronic version of local clinical paper-based information
 - Mainly used for patient care within the local facility
 - Records not optimised for sharing with other providers or organisations
- **EHR –**
 - Electronic records of patients' overall health information
 - Core component of public health and policy-making
 - Optimised for sharing with other providers or organisations

3.

We do everything to help you take the best decision, in the most convenient way possible.

Try Before You Buy - 3 Months Free Trial

- Get your NG Care Portal site set up and make full use of the complete system for 3 months, all **FREE OF CHARGE!**
- If you don't like the system, simply walk away and pay nothing at all.

Very Easy Payment Plan

- We have made sure that ours is easily the most cost-effective, fully-featured and easy to use EHR in the Nigerian marketplace today.
- You can of course opt for paying a lump sum.
- But if you prefer, you can spread the cost of your selected NG Care Portal Service options by paying an affordable amount every month.

4.

Before the advent of NGCP, the decks were effectively stacked against most health facilities in Nigeria.

Electronic Health Records / The Team / One-Source Health Care Solutions (NGCP)

Before now, what were your options for getting and using EHR / EMR in Nigeria?

- Systems not produced and provided by experienced Nigerian Medical Doctors fully IT trained and certified, with Chartered IT Professional status
- Systems provided by companies that do not have **both** foreign and Nigerian Medical and IT experience
- Very expensive systems, especially for the vast majority of providers
- Generic systems not particularly "Nigerianised"
- Systems designed to exclude lower-tier healthcare practices and facilities – only catering to the "big boys" with deep pockets!

5.

NGCP is owned by TISP Consultants Ltd. They bring vast wealth of knowledge, skills and experience to bear on the solutions made available for your benefit.

Electronic Health Records / The Team / One-Source Health Care Solutions (NGCP)

TISP Consultants' Solutions - I

- Secure and Certified systems designed and delivered by Nigerian Medical Doctor of almost 40 years' experience that is also fully IT trained and certified, with Chartered IT Professional status
- Systems provided by a company combining both foreign and Nigerian Medical and IT experience
- Low-cost systems that are easy to maintain month to month
- Tele Health systems that are secure and very easy to use via readily available devices.
- Systems specifically designed to accommodate and empower lower-tier healthcare practices and facilities, while also catering to the needs of the "big boys" with deep pockets.

6.

Protecting your patients' information is paramount in NGCP. We therefore make securing your site a critical activity.

9.

Corporate Social Responsibility (CSR) is extremely important to us @ TISP Consultants Ltd and we put our money where our mouth is.

NG Care Portal

Addendum - II

TISP Consultants' contributions to the ANPMP Welfare Fund:

- For every Doctor taking up any of the Annual Optional Subscription services, TISP Consultants will contribute NGN10,000.
- This NGN10,000 contribution will be in the name of (or on behalf of) the Doctor, so it is effectively a discount!
- For the sake of fairness and transparency, the contribution will be to the particular Doctor's ANPMP Zone's Welfare Fund.
- The NGN10,000 contributions **will always be made at every renewal** of the relevant Annual Subscription.
